Half Moon chair by Louis Saul

Louis Saul designed this **Half Moon Chair** and presented it for a first time at Imm Cologne 2008 under his studio's label dodollivn.

Half Moon is a wing chair. Skeleton-like seat cushioning made from bright orange sponge rubber adorns the black laminated wood boards of the armchair, which with its sweeping lines and highly contrasting colours is reminiscent of Batman. The armchair and the companion ottoman each offer room for two dozens books – a reference library ready at hand for relaxation.

Materials: wood and sponge
 Dimensions:
 Chair: H143, L125, W60 cm
 Ottoman: H49, L107, W51 cm
