Half Moon Chair by dodolivin

Image: dodolivin

Half Moon is a wing chair. Skeleton-like seat cushioning made from bright orange sponge rubber adorns the black laminated wood boards of the armchair, which with its sweeping lines and highly contrasting colours is reminiscent of Batman. The armchair and the companion ottoman each offer room for two dozens books – a reference library ready at hand for relaxation.

Louis Saul designed the chair and presented it for a first time at [imm Cologne 2008](#) under his studio's label [dodolivin](#).

Materials: wood and sponge

Dimensions:

Chair: H143, L125, W60 cm

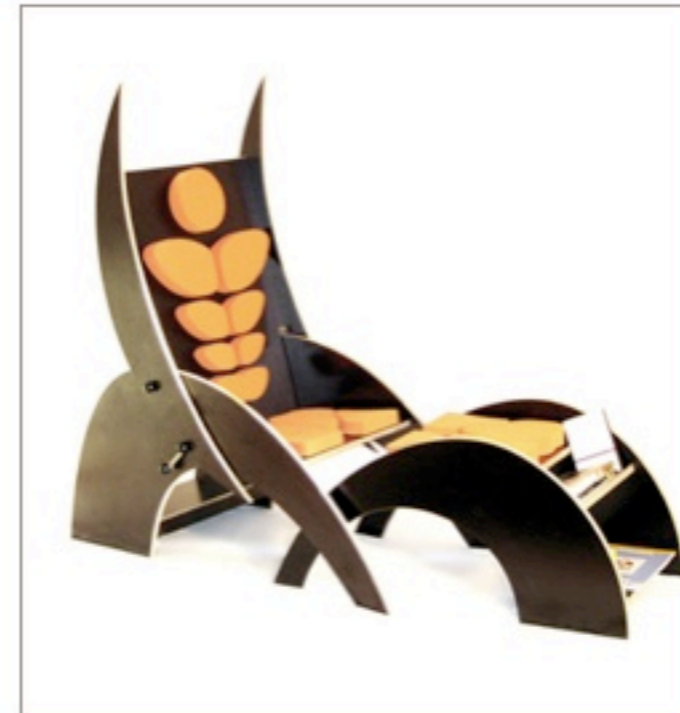

Ottoman: H49, L107, W51 cm

author: DeZona date: 19 March, 2008
