Make a Wist!

Wists is short for weblists, shareable image bookmarks for any page on the web. With wists, your wishlists are not limited to one site such as Amazon. Sign up and install the Wists browser button, to automatically create picture bookmarks, for any page and without having to upload anything.

Batman's chair with mini library by Louis Saul

"The magnificent Half Moon chair by Louis Saul was unveiled at the imm Cologne 2008.

The Half Moon is designed as a wing chair with built-in skeleton-like bright orange seat cushioning made from sponge rubber on top of black laminated wood boards. The avant-garde design and highly contrasting colours style strike a resemblance with the dark knight's style.

An added bonus is that both the armchair and the companion ottoman double as storage for about two dozens books providing an easy-access mini-library. "
